

## Lewis Road Terraced Houses

The houses comprising numbers 1, 3, 5, and 7 Lewis Road were built around 1830. The construction is of square cornered limestone, with slate roofs and individual stone forecourt walls of random rubble. The original windows and doors had flat arches above, though modernization in some of the houses has removed these features.

Number 1 Lewis Road between 1830 and 1971 as a village shop; a bakery; a post office; and last of all a grocer's shop.

Lewis Road – Past (1830) & Present (2019)
